The "Effectio," for which Joe Locke is agent in this city, comes to us with a giorious table of contents for July. First we have an article on "Three Hundred we have an article on "Three Hundred Years of Christianity in Japan," Then come "Sir Thomas Browne," "Darwinism and Religion," "Station Life in New Zea-land," "Who was Junius"" "The Sun's Atmosphere," "Robespierre," "Mivart's Genesia of Species," "Mr. Tennyson's Poetry," "The Religious Movement in Germany," and nine or ten others. There are also four chapters of the excel-lent story, "Patty" and a nortrait and lent story, "Patty," and a portrait and sketch of the Rev. James McCosh, D.D. The price of the Kelectic is \$5 per annum; 45 cents per copy. The publisher is E. Pelton, 108 Fuiton street, New York. Music can no longer be considered a nxury, and those who spend fabulous sums in purchasing sheet music are sim-ply throwing their money away. If our musical friends will take the trouble to cours a copy of Peters' Musical Monthly, hey will see What their wiser friends are folds—namely, getting better music at one and two cents a piece than they are buying at thirty, forty and fifty cents. Each number of this valuable publication contains thirty-six pages of music, printed from full size music plates, embracing sacred and secular songs, duets, choruses, polkss, waltzes, etc., in every issue. The July number commences volume VIII, and contains thirteen pieces of music, neatly bound, that would cost just four dollars and fifty cents in sheet form. You can get it by mail, post paid, by sending thirty cents to J. L. Peters, 599 Broadway, New York.
